THANK YOU!

Our students have poured their hearts into this show, and we are honored to give them a space to share their passion, creativity, and joy live on stage. Thank you for being part of our theatre family and for supporting these young artists.

Enjoy the show!

Anastasia is Michelle's directing debut. Usually behind the scenes as only choreographer, she tried her hand at tackling both and could not be more proud of her cast for making her visions come to life. Each student in the cast brings their own personality and experiences, making it a truly touching story to watch. She hopes you enjoy their hard work as well!
